Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Response to Amendment

The Amendment dated May 13, 2005 made to the previously rejected independent claims has obviated the rejection made in the Office action dated February 8, 2005. However, a new situation is noted in new claim 39 necessitating a final rejection.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

Claim 39 is rejected under 35 U.S.C. 102(e) as being anticipated by Sorg et al.

Claim 39 is rejected under 35 U.S.C. 102(b) as being anticipated by Meehan et al.

For the rejection of claim 39 above, please refer to the previous Office action that was addressed to original claim 1, since original claim 1 and claim 39 carry the same scope in that the difference between these two claims is that: (1) a word – surface – is inserted in front of the word “deformation” recited in original claim 1, and (2) a phrase – detected by said detector – is added at the end of the original claim 1 to produce the newly presented claim 39. These inserted word and added phrase characterize only inherent features of the optical element and the detector, respectively.

Minor Informality Noted

In claim 37: line 7, “pan” should be – part --.

In claim 38: line 1, “the” should be replaced with – an --; and line 4, “collect” should be – correct --.

Allowable Subject Matter

Claims 1-38 are allowable. The allowability of these claims centers on, for some of the claims, the amended language incorporating the direction of the application of the force, which is in opposite direction to a gravity direction, and for some other claims, especially newly added claims, on incorporation of objected subject matter into these latter claims.

Corrected Drawings

The corrected drawings filed May 13, 2005 have been approved by the examiner of record.

Final Rejection

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
